

Akrotiri School

Friday Feeling

#007

Friday 15 October

What a tremendous week of enhanced educational experiences for our children! Y2 have engaged in some super environmental learning at the Environmental Centre outside the station. It is a fantastic facility that gives so much information about the flora and fauna immediately around us. The children came back full of enthusiasm and keen to share their newfound knowledge. An incredible visit – well done Y2.

Today Y5 and Y6 took a more technological route with their learning, as they worked with the STEM team to design and make robots which could be programmed to move on demand. Thank you so much to the RAF STEM team who delivered the session with great enthusiasm and inspired our children through challenge and support. Who will be the next James Dyson?

Finally, there have been references made to 'Squid Game' around school this week. You may be aware that this is a trending Netflix production which has hit our screens recently. However, it is rated 15 or older and is extremely violent in its nature – please be aware that this is not a children's programme, despite its first appearance.

It hasn't gone unnoticed that this Friday Feeling is #007, and as I look forward to seeing the next instalment of Bond this evening I wish you all a wonderful weekend. Remember next week that school is closed to children on Friday, for the Staff training day.
